

JHON ATUNCAR

Software Developer

Hello, I am a Full-stack developer on web and mobile apps, Apps published on Google Play as Shopify integrations and Stand alone Apps. Skilled in JavaScript, Python, Django, Laravel, Android (Kotlin/Java), Flutter, and ML Models training and Deployment. With a solid foundation in programming fundamentals, I quickly adapt to new tech and consistently deliver organized, scalable solutions. Excited to tackle challenging projects and grow my technical expertise.

PROFESSIONAL EXPERIENCE

2023

Enhanced Customer Support for a Subscription-Based Software Service, Django, Langchain, Google Gemini
📍 VENEZUELA
Drotafarma
- **Freelancer**
- Wordpress Websites on Travel, Tech, Audio, French Cosmetics (Php / Javascript)
 - Insurance Company Software (Python Stack)
 - ComfyUi Nodes to Digest Code for LLM's (Open Source)
 - Streamlit Data Visualization (LLM Agent / Chats)
 - NetworkX Animations for Youtube Creators
 - ComfyUi Pipelines for Product Photography

TECH HOBBIES

- Open Source

- cHugging Face Classification Model
- Finetuning Lora Adapter over fp16 Model
- Streamlit Chat
- Telegram Bot with LLM
- ComfyUI Scripts

- LLM Finetuning

- Llama 3.1 / SD 1.5 / Flux / Classification / SLM's
- Finetuning using H2O (Query / Response) over LLama 3.1
- Lora Finetuning for Diffusion Models (SD 1.5 / FLUX)
- Finetuning on Image Models (Convolutional Networks VGG-16)

- Datasets Build

- LLMware / h2o / Dspy
- Dspy Classes to build Multilayer Predictions
- LangChaing / Llamaindex Text Extraction for Vector Stores
- Q&A for Llama Models
- Neo4j Graph Datasets for RAG
- Image Datasets for Lora Finetuning for SD 1.5 / Flux

- Agentic Pipelines

- N8N / Flowwise
- Implementation of Agents with RAG and Web Browsing for Retail ChatBots

- LEARNING PROJECTS ON

- Big Data technologies

- Data Warehousing/Lake Microsoft Fabric
- Microsoft

- Message Brokering

- RabbitMQ
- Open Source
